Introduction: -

Access to justice is essential for rule of law. Access to justice, enable citizens to have their voices heard, exercise their rights and challenge discrimination. Access to Justice is not confined to court based legal services. It extends to making people aware about their entitlements under various enactments and welfare schemes and programmers and strengthening their access to the same. Some Legal Awareness Visit is being held by the State Legal Services Authorities to make people aware about their entitlements and apprise them about the availability of free legal services. In most of the visit, it has been observed, only creating of awareness is focused on. There is a need to affect paradigm shift from awareness to empowerment. For this to happen, a new Model of holding Legal awareness visit is required which would not only make people aware about their entitlements and procedural aspects relating to the same but also connect them to the welfare schemes meant for them. Delivery based Model for holding Legal awareness visit is required.
