VALUE ADDED COURSE ON MANIFESTATION YOGA

Course Status : Regular

Duration : 40 Hours

Category : Manifestation Yoga

Level : Graduate

Start Date : 11-Oct, 2021

End Date : 30th Nov, 2021

Enrollment Ends : 30th Sep, 2021

Exam Date : 15th Dec 2021

Objective - Aham Brahmasmi. This is the supreme truth that the entire creation is based on. As human beings, we are blessed with the highest form of sentience and we experience the universe deeply. However, we have forgotten the supreme truth entirely or we fail to realize it in our daily life. Praakatyoga aims to raise the spiritual awareness of humans as well to give deep holistic insights to assist us in living a more fulfilled life driven by values instead of mere materialistic goals.

1. **Big bang theory – A scientific analysis of the origin of the universe**

Universe which was comparable to the size of a single bacterium in a billionth of a trillionth of a second expanded by a factor of 10 to the power 26 and became the size of the Milky way galaxy. Matter and energy are constantly converting into each other throughout the universe.

2. **The Bible for manifestation – Understanding the teachings of the bible regarding the role of manifestation**

The bible talks about gratitude and generosity as the key to prosperity for example, Gospel of St Matthew that goes like this - those who already have will get more and have plenty. But those who don't have even what little they have will be taken away. It may sound unfair, like rich get richer and poor get poorer. But there is a secret hidden in it.

The key to this mystery is gratitude.

3. **Bhagwat Geeta – Learning the supreme truth as described in the Bhagwat Geeta**

Lord Krishna shows his true form to Arjuna and explains how the entire universe is Him. He explains how the entire creation is the supreme truth itself

4. **Manifestation – Meaning of the term**

The word Manifest DOES NOT mean create. It does not mean borrow, buy or build. It means to make visible that, which already exists. The un-manifested is not non-existent, it is merely hidden, waiting to be uncovered.

5. Know Thyself - we are beings with an infinite consciousness.
Due to our limited sensory perception, we spend our entire lives believing ourselves to be beings of limited potential, confined into a small mortal body. This forgetfulness of our true reality has been spoken about by great mystic Yogis throughout the ages.
6. The forgotten truth - We have forgotten that we are "Prana".
The cosmic spiritual energy that manifests into all forms of matter and measurable energy. We are not human beings experiencing the Universe, we are the Universe experiencing human beings. In this forgotten truth lies our ability to realize our infinite potential to manifest anything. Consciousness is the guiding mechanism that the Universe uses to manifest a material reality from pure energy of infinite possibilities.
7. The price we pay - The forgetfulness of our true form costs us too much. We are bound to spend our entire lives under the belief that we are insignificant beings on a cosmic scale. We believe that we are born at one point in time, and then life events happen to us with very little control until we die. We take it for granted that there is a separation between us and the Universe, Time and Space.
8. The reality – what quantum physics tells about the universe
Through the Schrodinger and Heisenberg model of atom, it has been proven that the Quantum world goes in and out of existence constantly. 99.999 % of the time it is pure energy, materializing only for 0.001 % of the time. The nature of the sub atomic world can only be talked about in terms of "probability distributions". On the deepest scale, the Universe is all about probabilities, that are suspended. Infinite number of realities that stay suspended 99.999% of the time as pure energy, and only collapse into measurable solidity 0.001% of the time.
9. The universe - Hence the correct way to look at the Universe is to think of it as a Giant cosmic dance of infinite possibilities, enacted by Prana, taking the form of all matter and visible energy, and witnessed by Prana, taking the form of all conscious beings from the simplest bacterium to a complex Human Being.
10. Case studies –
 - Young's Double Slit Experiment and Quantum Entanglement.
 - Ancient Yogis have demonstrated superhuman abilities through control of Prana energy flow.
 - HeartMath Research Institute has proven that EEG waves of the heart have the potential to untangle DNA, through a controlled experiment.
 - Dr. Lebovici's prayer experiment has demonstrated the power of intentions with strong emotions in the form of prayer.
 - The intentions experiment by Lynne Mc Taggart

11. The purpose - The purpose of Manifestation Yoga

This false sense of separation deprives us of the sole purpose of life – to consciously experience the joy of the infinite by manifesting it into the finite. The purpose of Manifestation Yoga is to reach deep inside us and unveil that, which has been buried under the limitations of ignorance, cultural dogma and false conditioning.

12. Manifestation Yoga Meditation – an overview

Understanding the process and its basic structure

13. Grace – showing our gratitude to the universe for the opportunity to witness this beautiful creation

14. Attune – being one with the universe

15. Recharge – energize the body on a cellular level

16. Strengthen – make the body stronger for maintaining optimum posture

17. Heal – healing the body and blessing the chakras

18. Manifest – manifesting the most desirable experience of this life

19. Bonus chapter – Riddikulus

Students will have the opportunity to write on a number of different topics and ideas, always centered on areas of interest to them. This course helps to develop the writing skills required in today's business world. Students learn techniques for writing effective emails, memos, proposals, and reports for a variety of audiences, becoming more accurate, clear and concise.

Learning Objectives - The purpose of academic writing is to inform, analyze, argue or evaluate a topic using evidence and logic. Academic writing presents and evaluates issues and arrives at an objective position: a position that focuses on and is informed by research and reasoning rather than personal feelings and opinions. The most common purpose in academic writing is to persuade, analyze, synthesize and inform. On the other hand, business writing is intended to inform, instruct, persuade or propose a solution using facts and benefits. The purpose of business writing is to communicate information clearly and effectively. It should be easy to understand and provide the reader with all the necessary information. Companies and firms can use business writing to convince customers to buy their products or services.

Course objective

Mahatma Gandhi and his principles have great relevance in this era of Globalization. Violent conflict and instability disrupt markets and societies. A peaceful environment is a pre requisite for successful business. Inclusive Growth is necessary for sustainable development. This course is designed to inculcate strong values in students and sensitize the youth to the problems of the marginalized. It aims at training the students in the art of participatory management and peaceful methods of conflict resolution. Through an interesting and well-planned mix of lectures, presentations, skits, films, social outreach programmes and other activities it aims at developing the overall personality of students by helping them discover their latent talents and instilling leadership qualities. True education is not just coming out with a degree. It is how you change and what your values are when you finish. Peace is definitely good business and efforts to promote it certainly makes good business sense. With increasing number of Companies going in for Corporate Social Responsibility students who have completed this course will definitely have an edge over others as the job market may prefer those who have executed some social sector responsibilities in addition to academics

Add on Course on Legal Drafting

About the course

Legal drafting is a structured method of writing legal documents, whether court pleadings or employment contracts, that abides by the law and includes legal language that's appropriate for the document and the situation in which it will be used. Those in the field may refer to legal drafting in the following contexts:

- 1-Writing legal text in a binding contract. The words you write will describe the rights and responsibilities of the involved parties.
- 2-Preparing any legal document, such as a legal letter or court motion.
- 3-Getting involved in a legal transaction, which can include legal documents but also negotiation, representation of clients, and more.

Objective of course

Legal drafting is important because the process helps to make sure that legal documents are formatted correctly, that all parties who are involved in the document are happy with the details of it, that jargon is explained, and that everything you'll be presenting to the court or another presiding body is laid out as it should be. A legal document should explain its purpose, be amenable to all parties, and be drafted in such a way that it's legally binding and acceptable in the eyes of a court.

An error in a legal draft, however small, can severely affect the meaning of that document and have long-term consequences, especially if it's a legal document that is signed and executed and that all parties must abide by moving forward. A well-constructed document can make a big difference by helping an attorney win cases in court or preventing lengthy mediations in the workplace over an employment contract dispute.

Objectives:

1. To provide an idea about the general rules and principles of drafting legal documents
2. To acquaint the major provisions related to drafting under the Indian Laws
3. To analyses issues in contracts and negotiating terms of the contract
4. To provide practical training in drafting various legal documents such as notices, sale deeds, contracts, etc.
5. To enable the students to deal read and understand legal documents which he/she may deal in their normal life.

Course Description-It introduces students to traditions of thinking about Law and justice, morality and justice. The course look at theories of law and the orics of justice, the tradition of natural law thinking, and scrutinizes situations in which law and justice come into tension. Law is concerned with a person's individual liberty, while morality is concerned with collective conceptions of what is good and evil. Law governs a man's behavior when he is a member of a particular society. Whereas morals Govern a man's behavior even when he is alone. Moral Law is a system of guidelines For behavior. These guidelines may or may not be part of religion, codified in writer from, or legally enforceable. For some people moral law is synonymous with the commands of a divine being. For others, moral law is a set of universal rules that should apply to everyone.

Learning Objectives- As stated before, the end goal of enacting laws is to maintain a society that is based on principles of justice, fairness and equality. The entire purpose of having certain moral standards is also to maintain some sort of order in the society which would lead to fewer conflicts. A close link exists between morality and the rule of law, since morality complements the rule of law. At the some moment it should still be considered a casual bridging between the both, as laws are not made out of moral principles, rather, they are established and

shaped by a legal consensus of right and wrong. Thus, it provides the government to punish the offender. There are many purposes served by the law. Out of these, the main four are maintaining order, establishing standards, protecting liberties, and resolving disputes.

Outcomes-The law is a tool for efficiently enforcing moral values. Morality is an internal concept, while the law is external; If someone does not follow morality in his actions, there will be no consequences; but, If someone disobeys the law, there will be consequences. It is clear that law and morality have a long history and it is believed that law is heavily influenced by morality. While that is true, it can also be observed that rules and regulations also have a great impact on the moral standards that exist in society
