One Day Workshop

On

New Way of Teaching and Better Delivery of Legal Education

Program Date – 06 September 2022

Venue – Seminar Hall

Speaker – Mrs. Sweta Singh H.O.D./Assistant Professor SVM Law College

No. of Participants – 19 Faculty Member of SVM Law College

Report Date – 12 September 2022

Legal Education in the 21st century is witnessing a significant integration of technology, revolutionizing the learning experience for law students. Technological innovations provide access to resources, enhance engagement through webinars and e-learning, and promote inclusivity, ultimately transforming legal education and expanding opportunities for career growth.

Teaching Methods in Legal Education:

There are various kinds of Teaching Methods in Legal Education an across the global level. An out of which more specific and prominent methods are as follows:

1. Lecture Method
2. Case Method
3. Problem Method
4. Discussion Method
5. Simulation and Role Play
6. Collaborative Teaching Method
7. Seminar Method
8. Clinical Method
9. Other method

Advantages of lecturing method

1. Lecture is a passive method of teaching. Lectures are used to convey critical information, history, background, theories and equations.
2. Facilitating large-class communication. Large numbers of students get the benefit of gaining information, . Greater teacher control in the classroom,
3. An engaging format, which may complement and clarify course material,
4. Students listening skills develop
5. Help to learn languages and
6. Lecturing also permits the dissemination of unpublished or not readily available material.

Disadvantages of lecturing method:

1. Placing students in a passive (rather than an active) role. .
2. Grabbing attention of students is very difficult.
3. Slow learners face problem in following teaching/ lecturing.
4. Encouraging one-way communication. The lecturer gives lecture and the students listen but don't interact.
5. Requiring significant out-of-class time for students to engage with the material, and
6. Lecture methods are constrained to class room teaching only.
7. Requiring the speaker to possess effective speaking skills.

Types of lecture method:

1. Oral also includes face to face lecturing method and online lecturing method. Traditional
2. Textual/ multimedia includes PPT, CD's.lecture3. Participatory lecture includes debate / group discussions.
4. Problem solving. A problem becomes the focus for demonstration and generates various solutions.

The above methods from 1 to 3 come under the category of old traditional method of teaching. Lecture method should be used and is most effective when it presents information which students cannot learn on their own.

Steps to be followed in order to deliver good lecture while applying lecture method:

1. Know your audience (students, officials, laymen, professionals, workers, housewives. etc.)
2. Prepare a map to follow (lecture outline)
3. Start the lecture with an introductory topic (grab attention of the audience)
4. Recognize audience attention span
5. Plan an activity for the audience/ students
6. Use attractive way of presentation by way of audio and visual presentation tools
7. Have a conclusion, summary at the end of lecture and
8. Give assignments/ task for the audience/ students to prepare and come based on the lecture delivered.

Introduction- S.V.M.Law College, Shikarpur has always taken affirmative actions to bridge the gap between advanced and slow learners and provide a viable learning atmosphere wherein individual student can benefit and grow according to their learning capacities. The attention given by the college in this regard is one of its kinds and ensures systematic methods for student learning. Along with common directions followed by the college, each department takes elaborate measures to affect student learning according to their subject specificities. Peer Learning Group (PLG) is one of the positive steps taken to bridge the gap between Slow and Fast learners.

Peer Learning Groups (PLGs) “Tell me and I forget; teach me and I remember; involve me and I learn” – Benjamin Franklin

1. The concept of Peer Learning Groups (PLGs) at S.V.M.Law College gets its impetus from the aforementioned concept of Benjamin Franklin. The idea behind the PLGs is to create effective student-centric and student-initiated learning spaces wherein learners, irrespective of their learning capacity could come together and participate in the learning process. Peer learning allows students to work through new concepts and material with other individuals engaged in the same work and provides them with opportunities to teach by one another, expanding their perspectives and fostering meaningful connections. The first step in the PLG is to divide the class into smaller groups. Utmost care is given to maintain the slow-fast learner ratio such that each group has equal representation. A mentor and a leader are assigned for each group who monitors the various activities done by the members. The activities vary according to the learning needs of the groups and students are encouraged to customize the activities accordingly. One mentor manages one class. Activities were assigned to each member in the group. Details of peer learning groups: Admission year: 2022-23 PLG –

The activity conducted was to answer the different question papers of Law. All the members actively helped in finding out the answers of their respective question papers and noted it down. The groups had also conducted a discussion regarding the question paper through interactive mode to clarify their doubts.

DEBATE (07-12-2022) - Another activity was assigned on 6th December, based on that a debate was conducted on the relevant topic in the present scenario. Different interesting topics were selected by all the five groups. The debate was conducted through Google Meet with one member as moderator for each team. There was whole hearted involvement and cooperation from the side every group. Conducting debates helps the students in increasing confidence and self-esteem, improving critical thinking skills, improving observation and communication skills. They can acquire public speaking skills too.

SELF ASSESSMENT (08-12-2022) - A new activity was given to 2 students selected from each group to test the performance level and the activity designed based on question answer session on aptitude level. This would help the students to self-realize their aptitude skills this activity helped the students to assess their own performance level and also helped them to develop specific learning skills that they will need for professional competence. This process may help the students to aware of and more responsible for their own learning process. Peer learning is becoming an increasingly important part of many courses and it is being used in a variety of contexts and disciplines. It is important to consider who the 'peers' in peer learning are. The peers can be fellow learners. We define peer learning in its broadest sense, as 'students learning from and with each other in both formal and informal ways. Students learn a great deal by explaining their ideas to others and by participating in activities in which they can learn from their peers. They develop skills in organizing and planning activities, working collaboratively with others, giving and receiving feedback and evaluating

their own learning. The emphasis is on the learning process, including the emotional support that learners offer each other.

At last Usha Gupta organizer of these classes thanked to all the mentors and mentees for their contributions. Students were very happy after achieving this opportunity.

Om Vashishth was one of the best performers among these students.
